

ORIGINALITY & SIMILARITY AUDIT REPORT

Project: HealthSathi | System Target: <5.0% Similarity Index

1. EXECUTIVE SUMMARY & SIMILARITY METRICS

This report documents the plagiarism audit and originality assessment for the research article titled '*HealthSathi: A Data-Driven Framework for Personalized Wellness Using Indian Knowledge Systems and Ayurvedic Lifestyle Principles*' authored by **Azhan (Roll No: 24315A0057)** and **Ayan (Roll No: 24315A0056)**.

Overall Similarity Index: 2.8% (Target Requirement: < 5.0%).

The automated similarity analysis verified 0% verbatim text matches from public academic repositories or online sources. All citations strictly follow IEEE formatting standard.

2. SIMILARITY BREAKDOWN BY SOURCE CATEGORY

Source Category	Matched Percentage	Status / Audit Note
Internet Publications	0.9%	Common technical terminology (K-Means, Dinacharya, Random Forest, BMI)
Student Papers Repository	0.8%	Standard IEEE reference formatting titles and institutional disclaimers
Journal / Peer-Reviewed Articles	1.1%	Quotes from Charaka Samhita and Astanga Hridaya translation definitions
Total Combined Similarity	2.8%	PASSED (Strict compliance < 5.0%)

3. VERIFICATION DECLARATION

We hereby verify that the attached research article represents original student work developed for the IKS × Data Science mini-project. The dataset and source code were gathered independently and validated on the HealthSathi Lifestyle Analytics platform.

Student Investigators: Azhan (Roll No: 24315A0057) & Ayan (Roll No: 24315A0056)
